

Burners Spells

Eight magic schools, each with **up to 36** spells from 1st to 6th level — a ceiling, not a quota. **Sorcerie** is the common craft; **six people-schools** are the traditions of the peoples of the Dragon Isles; **Canting** is the Darkman's Craft school. How you prepare, cast, and Defend is on [\[\[Burners Sorcerie\]\]](#); worked rulings for every 1st-level spell are on [\[\[Burners Magic Examples\]\]](#).

School	Domain	Tradition
Sorcerie	The common craft — the raw grammar of magic underlying all schools	any mage
Vitae	Life force, growth, and harmony	the Elves
Elementale	Primal forces, elements, and weather — dragon magic	the Baal
Thaumaturgy	Physical laws, mechanisms, and force — engineering magic	the Dwur
Illusione	Perception, thought, and dreams	the Belerions
Umbrakala	Shadows, thresholds, and dimensional paths	the Alu
Necromantia	Death, spirits, and decay	the Avathars
Canting	Deception and manipulation in Thieves' Cant	rogues

How to read a spell

Each entry is the spell's name as a heading, and the line below it is the whole spell: School level: effect (e.g. Thaumaturgy 1: ...). The school is trained-only unless it is Sorcerie (see *The Sorcerer* on [\[\[Burners Sorcerie\]\]](#)), and the text is the scope — do not expand a working beyond what it says.

Spell level

Each people-school lists **up to six** spells at a given level (sometimes fewer when a redundant twin was cut; sometimes more when every working earns its slot). Sorcerie, the common craft, is a thinning ladder with fewer. Prep cost and cast cost are the spell's **level**. Empty slots beat duplicate effects — **no two spells in the same school share an effect**.

Reading the catalog

Sorcerie in an effect = your **Sorcerie Approach level** (or Craft Level for Canting). At Sorcerie 1, Sorcerie creatures means 1 creature, Sorcerie × 10' means 10', etc. Minimum 1 where a count is implied.

- **Control** — effect lane, not HP; see [\[\[Burners Principles#Harm and effect are separate lanes\]\]](#) and *Defending against a spell* on [\[\[Burners Sorcerie\]\]](#).
- **Wound work:** *Healing Touch* (Vitae 1) restores HP / closes limb wounds while the target is **above 0 HP**. *Stanch* (Vitae 1) is the card that works at **0 HP or less**.

- **Canting** rolls Craft; a **Journeyman (Craft 1+)** with the **Canting** Trait may cast it (see *The Sorcerer* on [[Burners Sorcerie]]). Canting may echo another school's working in thieves' terms — same spine, different fiction — but no two Canting spells match each other.
 - **#needs-playtest** marks a working whose current rules are untested and may change after play.

Spell Lists

Sorcerie

The common craft — no people's tradition, but the raw grammar of magic that underlies the six people-schools. These are the first workings every apprentice learns before a school claims them, and the meta-magics the schools never bother to teach: reading auras, dispelling, warding. Sorcerie is written in plain sigils any mage can read, and it needs **no school Trait** — any Sorcerer may learn and cast its spells, whatever their tradition. It never throws force; it handles magic itself.

Sorcerie Level 1

Read Magic — *decipher magical script* Detect Magic — *sense the arcane* Ward Pact — *bargain against one harm* #needs-playtest Wizard Light — *conjure light or dark* Read Languages — *decipher mundane script* Cantrip — *the trained hand's small magics*

Spell Descriptions

1st level

Adhere

Thaumaturgy 1: Objects become sticky enough to hold a person to a ceiling. Lasts until washed.

Animal Bond

Vitae 1: Touch one animal; it regards you as a trusted companion for Sorcerie months. It will not obey suicidal orders. Re-casting on the same animal extends the bond.

Animal Friendship

Vitae 1: Animals obey your orders as well as a trained dog for one day.

Animate Skeleton

Necromantia 1: One set of bones within sight rises as an unarmed skeletal servant for the scene (or until destroyed). Simple commands only — dig, haul, fill a doorway. #needs-playtest

Arcane Eye

Illusione 1: You create a magic eye that flies around under your control for Sorcerie turns. You can see through it as well as your normal eyes.

Auditory Illusion

Illusione 1: Create illusory sounds that seem to come from Sorcerie directions within earshot.

Beast Speech

Vitae 1: You understand and speak with animals for Sorcerie hours. They do not obey unless persuaded (Heart) or befriended.

Befuddle

Umbrakala 1: A creature is unable to form short-term memories for Sorcerie turns.

Bewitch

Illusione 1: Sorcerie humanoids believe they are close friends with you until proven otherwise.

Black Sacrament

Necromantia 1: Sacrifice 1 HP to bless Sorcerie undead servants for one day (+1 Damage).

Blood Curse

Necromantia 1: Mark one creature; you know direction/distance for Sorcerie days.

Blood Track

Necromantia 1: Follow a blood trail up to Sorcerie miles; fresh only.

Blur

Illusione 1: Attacks against you suffer –Sorcerie Damage while you move for Sorcerie turns.

Budge

Canting 1: Craft mundane locks within sight unlock at once (no pick marks). Magical locks still need *Knock* or better.

Cantrip

Sorcerie 1: Trivial magics on command — clean or soil an object, chill or warm a mouthful, colour a flame, lift a feather-weight, strike a spark, throw a small sound. Nothing that deals damage, moves real weight, or fools a careful eye. The parlor mark of a schooled mage.

Cloak of Shadows

Umbrakala 1: +Sorcerie AC in dim light or darkness for Sorcerie turns.

Command

Thaumaturgy 1: A creature obeys a single, Sorcerie-word command that doesn't harm it.

Cony-Catch

Canting 1: Read one target's vice or fear (one sentence truth). #needs-playtest

Crystal Growth

Elementale 1: Grow Sorcerie fist-sized crystals from stone over Sorcerie hours; worth little but hard as stone.

Darksight

Umbrakala 1: See in total darkness for Sorcerie hours.

Deep Shadow

Umbrakala 1: A Sorcerie × 40' wide sphere of total darkness appears, centered where you point, lasting Sorcerie turns.

Detect Magic

Sorcerie 1: For Sorcerie turns, magic within line of sight glows to your eye; on request you learn its rough school and strength (up to Sorcerie such readings before it fades). *Illusione* teaches a keener *Detect Magic* that lasts a day and names exact properties.

Detect Magic

Illusione 1: Anything magical within line of sight glows and reveals its properties on request. Lasts 1 day or until you make Sorcerie requests.

Dragon's Breath

Elementale 1: Cone 60'. Each target may Defend; overrun to HP (– AC if physical; monsters → Hits).

Filch

Thaumaturgy 1: Sorcerie visible items teleport to your hands. Snatching a held item is contested — the holder Defends against your cast total; overrun takes it.

Flash Paper

Canting 1: Messages on flash paper visible only to Canting-literate readers; burns after Sorcerie readings.
#needs-playtest

Fog Cloud

Elementale 1: Fog spreads out in a Sorcerie $\times$ 10' radius from you. Fades in one turn.

Force Push

Thaumaturgy 1: An object of any size is pushed directly away from you with the force of Sorcerie men for one round.

Gate Sense

Umbrakala 1: Sense gates, portals, and thin places within Sorcerie $\times$ 100' for Sorcerie turns.

Hatred

Umbrakala 1: Sorcerie creatures start attacking each other for one turn or until one dies.

Healing Touch

Vitae 1: Touch a willing creature who is still **above 0 HP** — restore **1d6 HP**, or close one **open limb wound** (not vital). Does nothing at **0 HP or less** — that is *Stanch*.

Heat Metal

Elementale 1: One metal object glows hot for Sorcerie turns; holder takes **1d6** per round to HP (– AC if physical; monsters $\rightarrow$ Hits). Unless dropped.

Icy Touch

Elementale 1: An ice layer spreads across a surface, up to Sorcerie $\times$ 10' in radius.

Joy Song

Vitae 1: Sorcerie listeners shake off fear or despair; each recovers 1 HP if they have at least 1 HP. Lasts one scene.

Juke

Canting 1: Your next Defend this round may burn **one extra Fuel die** beyond the usual cap (dirty fighting).
#needs-playtest

Leap

Thaumaturgy 1: You can jump up to Sorcerie × 10’.

Light Shield

Vitae 1: One creature; attacks by undead or unbound spirits against them suffer –1 Damage for Sorcerie turns; charm or possession from such sources fails against Sorcerie weak spirits automatically. #needs-playtest

Marble Madness

Necromantia 1: Your pockets refill with marbles every round for Sorcerie rounds. #needs-playtest

Mark the Gull

Canting 1: For Sorcerie hours, spot the most gullible or greedy mark in a crowd (Heart contests against you fail). #needs-playtest

Mort’s Mask

Canting 1: Alter the look of Craft humanoids as long as they remain humanoid. Lasts until a subject speaks.

Read Languages

Sorcerie 1: For Sorcerie turns you can read (not speak) any mundane written language, cipher, or code, however foreign or old — maps, ledgers, inscriptions. Does not pierce magical writing; that is *Read Magic*.

Read Magic

Sorcerie 1: Learn what **magic items** do — probe a ring, blade, wand, or relic for **Facts** (Step-2 risk when you go deep; see *Reading Magic* on [[Burners Sorcerie]]). That is the spell’s main use. On **scrolls** and **foreign spellbooks**, it **identifies** what workings they hold before you risk them. If you already hold the school’s Trait (or the book is common Sorcerie), you read that grimoire without this card — see *Learning Spells*. ***Read Magic* does not teach spells.**

Stanch

Vitae 1: Touch a willing creature at **0 HP or less** — restore **1d6 HP** and stabilize them enough to count as **help** after a fight (they still make the Craft survival check if Wounded). Does not close maimings. *Healing Touch* cannot do this work.

Thaumaturgic Hand

Thaumaturgy 1: A spectral hand appears within Sorcerie × 10’ and carries or manipulates light objects at your command for Sorcerie turns. It cannot attack or exert real force.

Visual Illusion

Illusione 1: You create a silent, motionless illusory image about the size of a creature or object within Sorcerie × 10’, lasting Sorcerie turns. It casts no sound, light, or smell, and touching it or studying it closely reveals the illusion.

Ward Pact

Sorcerie 1: When you **ready** this card in your hand, name **one narrow source of harm** — blades, bludgeons, missiles, fire, cold, lightning, the fang-and-claw of beasts, or **magic** (the pact traditionally called **Parma Magica** or the **Mage Shield**). Casting raises the ward: for Sorcerie Turns it counts as **leather armor (AC 1)** against the named source — after you Defend, it soaks 1 from the leftover of each such blow. It does not stack with worn armor: the blow is soaked by the better of ward or AC, not both. It also grants a shield's benefit against the named source: you may **Defend those blows with two dice**. Against the magic pact, trivial first-level workings wash off entirely. No help against any harm you did not name, nor against magic made physically substantive (conjured stone, a flame wall) unless *magic* is the pact. #needs-playtest

Web Weave

Elementale 1: You can shoot Sorcerie × 40' of strong, sticky web. Lasts until burned.

Wizard Light

Sorcerie 1: Torch-bright light springs from a point or object you touch, radius 30', for Sorcerie hours; you may instead quench light in the same radius (darkness). Cast on a creature's eyes it blinds for 1 round unless they Defend.

Wizard Mark

Necromantia 1: Your finger produces ulfire-colored paint for Sorcerie hours. This paint is only visible to you, and can be seen at any distance, even through objects.

2nd level

Animate Object

Thaumaturgy 2: One unattended object obeys simple commands for Sorcerie turns. It moves 15' per round; no fine craft.

Arcane Sigil

Sorcerie 2: Inscribe an invisible personal mark on a surface or object, readable only by Read Magic or Detect Magic. It proves your authorship, seals a document (you know at once if it is opened), or anchors another Sorcerie working to that spot. Lasts until dispelled.

Balance Weave

Vitae 2: For Sorcerie hours, two opposed forces within 10' (heat/cold, light/dark, poison/antidote) neutralize each other at the midpoint.

Beast Bond

Vitae 2: As Animal Bond, but permanent until the animal dies or you release it. One bond active at a time per caster.

Beast Form

Vitae 2: You and your possessions turn into an animal for up to Sorcerie days.

Bone Puppet

Necromantia 2: Control one Small or smaller corpse like a marionette (spectral strings visible) for Sorcerie turns. It moves at half speed under your command. Not a permanent raise. #needs-playtest

Bone Shield

Necromantia 2: Skeletal armor +Sorcerie AC for Sorcerie turns; looks horrific.

Brotherhood Mark

Canting 2: Sense guild-brothers within Sorcerie × 100' for Sorcerie hours.

Comprehend Dead

Necromantia 2: For Sorcerie hours you read and understand writings and tongues of the deceased — epitaphs, curses, grave-scripts, forgotten dead languages. Living speech is untouched. #needs-playtest

Dark Anchor

Umbrakala 2: Fix one point in space; teleportation and gates within Sorcerie × 10' fail unless Sorcerie beats your cast.

Dark Blessing

Necromantia 2: One undead gains Sorcerie temporary HP.

Disassemble

Umbrakala 2: Sorcerie body parts may be detached at will. You can still control them. Lasts until they are reattached.

Disguise

Illusione 2: You may alter the look of Sorcerie humanoids as long as they remain humanoid. Lasts until the subjects speak.

Divine Grace

Vitae 2: One ally gains +1 on their next Sorcerie roll or Shock / survival check within Sorcerie hours (blessing, not stacking).

Dream Message

Illusione 2: Send a Sorcerie-word message to a sleeping person you know; they remember it as a dream.

Duplicate

Illusione 2: Create Sorcerie fragile, porcelain copies of items you can see.

Earth Shape

Elementale 2: Unworked earth and stone act like clay in your hands for Sorcerie turns.

Elemental Wall

Elementale 2: Creates a wall of ice or fire Sorcerie $\times$ 40' long, 5' wide and 10' tall. The wall can curve however you want.

Emotional Aura

Illusione 2: Project one emotion in Sorcerie $\times$ 10'; creatures feel it but Defend to act against it.

Feign Death

Illusione 2: You appear dead for Sorcerie hours; vital signs absent. Wound checks do not worsen you while feigning.

Fire Shield

Elementale 2: Flames wreath you for Sorcerie turns; melee attackers take **1d6** to HP (– AC if physical; monsters $\rightarrow$ Hits) when their blow lands.

Fleet Pad

Canting 2: Sorcerie creatures have their movement speed tripled.

Floating Disc

Sorcerie 2: A shimmering disc of force 3' across floats at your heel for Sorcerie hours, bearing up to Sorcerie $\times$ 100 lb — loot, a wounded ally. It follows you at a walk and cannot stray more than 10' from you; it winks out if you do.

Foist

Canting 2: Lift one small carried item from a person within Craft $\times$ 10' without their noticing — vs their passive notice out of combat. The mark does not feel the lift. #needs-playtest

Force Wall

Elementale 2: Invisible barrier Sorcerie $\times$ 20' long, 10' high; blocks physical passage until it takes Sorcerie $\times$ 5 damage.

Grave Mist

Necromantia 2: Fog spreads out in a Sorcerie $\times$ 10' radius from you. Fades in one turn.

Gravity Shift

Elementale 2: Sorcerie creatures can alter their 'down' direction at will.

Greater Ward Pact

Sorcerie 2: As Ward Pact, but the ward you name when you ready this card covers a **whole category**: all **weapons** (every physical arm, melee or thrown or shot), all **elements** (fire, cold, lightning, and their kin), all **magic**, or all the **wild** (fang, claw, horn, sting, and natural venom). For Sorcerie turns, anything in that category deals **–Sorcerie Damage** to you. One category per readying. #needs-playtest

Greed

Illusione 2: Sorcerie creatures become obsessed with possessing a visible item.

Growing Script

Vitae 2: Living text grows on a surface for Sorcerie days; only readers of Vitae (or Read Magic) can read it.

Hover

Thaumaturgy 2: Make Sorcerie objects hover 2' above the ground, frictionless. They can support the weight of up to Sorcerie people.

Ice Heart

Umbrakala 2: An ice layer spreads across a surface, up to Sorcerie × 10' in radius; creatures touched may Defend; overrun to HP (– AC if physical; monsters → Hits).

Increase Gravity

Elementale 2: The gravity within Sorcerie × 10' of you triples.

Invisible Tether

Thaumaturgy 2: Sorcerie objects within 10' of each other cannot be moved more than 10' apart from each other.

Kallascript

Umbrakala 2: Write gate-runes; opens a shadow door to a marked location you visited. Lasts Sorcerie days or one use.

Knock

Thaumaturgy 2: Sorcerie locks unlock.

Life Bloom

Vitae 2: Plants within Sorcerie × 10' flourish or wilt to your will for Sorcerie hours — fruit, tangle, or clear a path. They do not fight.

Life Sense

Necromantia 2: Sense living creatures within Sorcerie × 60' for Sorcerie turns.

Locate Object

Sorcerie 2: For Sorcerie turns you sense the direction to the nearest example of one object you name and clearly picture, within Sorcerie $\times$ 100'. Finds objects, not creatures, and is blind to anything warded (a Dark Anchor, lead, running water at the Referee's call).

Masquerade

Umbrakala 2: All creatures within Sorcerie $\times$ 10' of you are compelled to dance.

Miniaturize

Umbrakala 2: You and Sorcerie other touched creatures become mouse-sized.

Nip

Canting 2: One loose, unattended visible object within Craft $\times$ 10' yanks into your hand. Does not strip items from a grip — that is *Filch* or *Foist*. #needs-playtest

Second-Story Man

Canting 2: Climb any surface like a spider for Craft turns.

Silent Image

Illusione 2: A silent visual scene up to Sorcerie $\times$ 10' across, under your control. It may move and change; it has no sound, smell, or substance. Close touch reveals it.

Sorcerer Lock

Thaumaturgy 2: A door, lid, or portal cannot be opened by mundane means for Sorcerie turns (or until you release it). Magical opening (*Knock*, *Dispel*) still contests it.

Sort

Thaumaturgy 2: Inanimate items sort themselves according to Sorcerie categories you set. The categories must be visually verifiable.

Spring

Canting 2: You can jump up to Sorcerie $\times$ 10'.

3rd level

Budge Barrel

Canting 3: Hide Sorcerie slot-worth of goods in plain sight for Sorcerie hours.

Command Undead

Necromantia 3: One undead obeys a single Sorcerie-word command that doesn't destroy it ("flee," "halt," "approach," "kneel"). Hostile undead Defend against your cast total.

Control Device

Thaumaturgy 3: Mechanisms (locks, traps, clockwork) obey simple commands for Sorcerie turns within 30'.

Corpse Explosion

Necromantia 3: 10' burst from one corpse. Each target may Defend; overrun to HP (– AC if physical; monsters → Hits).

Darkmans Cloak

Canting 3: Craft creatures are invisible for as long as they can hold their breath.

Dispel Magic

Sorcerie 3: End one ongoing magical effect of level $\leq$ Sorcerie that you can see or touch: a charm lifts, a conjured wall winks out, a ward drops. Against another mage's working, roll **Sorcerie vs 8 + the working's level**. Cannot interrupt a spell mid-cast — that is Thaumaturgy's *Unravel*.

Dog's Leg

Canting 3: Tail one target undetected for Sorcerie hours (Craft vs their passive notice).

Forest Touch

Vitae 3: Plants within Sorcerie $\times$ 10' obey you as creatures for Sorcerie turns. They move 5' per round, grasp, and block.

Hypnotize

Illusione 3: A creature enters a trance and will answer Sorcerie yes or no questions.

Illusory Spray

Illusione 3: Flash blinds Sorcerie foes for 1 round (Defend vs cast total, or –3 Damage on the next Defend).

Invisibility

Illusione 3: Sorcerie creatures are invisible for as long as they can hold their breath.

Lightning Strike

Elementale 3: Defend; overrun to HP (– AC if physical; monsters → Hits).

Liquid Air

Elementale 3: The air within Sorcerie $\times$ 10' of you becomes swimmable.

Mend

Thaumaturgy 3: Repair one broken mundane object up to chair-size; magical items need Sorcerie vs the Referee's Risk. *Objects only — not flesh.*

Mind Shatter

Umbrakala 3: Psychic — ignores AC (monsters → Hits). Defend; overrun to HP **or** stunned 1 turn if defense < cast (not both).

Mirror Image

Illusione 3: Sorcerie illusory copies of you, under your control, appear.

Mist Form

Elementale 3: Your body and gear become cool mist for Sorcerie turns. You pass through gaps an inch wide; physical blows pass through you. You cannot manipulate objects or cast other spells while vapor.

Mountain's Strength

Elementale 3: You gain +Sorcerie Damage on shove/break attempts for Sorcerie turns.

Night Sphere

Umbrakala 3: A sphere of total darkness Sorcerie × 40' wide clings to you (or a touched ally) for Sorcerie turns, moving as they move. Creatures outside see only the black; those within are blind unless they have darksight.

Nightmare Seed

Umbrakala 3: Plant a nightmare in one sleeper; Defend; if defense < cast, they wake from fear.

Object Memory

Thaumaturgy 3: The Referee answers Sorcerie yes or no questions about an object.

Ooze Form

Umbrakala 3: Your body and gear become living slime for Sorcerie turns.

Pacify

Vitae 3: Sorcerie creatures in sight develop an intense hatred of violence for Sorcerie turns unless attacked. Each unwilling target Defends against your cast total.

Pain Echo

Necromantia 3: One creature feels your wound pain; if you have an open wound, they take **1d6** HP (ignores AC (monsters → Hits)).

Phantasmal Force

Illusione 3: Moving illusion. If believed: psychic — ignores AC. Defend; overrun to HP (– AC if physical; monsters → Hits).

Phantom Sound

Illusione 3: Project an illusory sound to a point you can see within Sorcerie $\times 100'$ — a shout, a door, a name. Distant work; closer noise is *Auditory Illusion*.

Psychometry

Necromantia 3: The Referee answers Sorcerie yes or no questions about an object.

Rain Make

Elementale 3: Rain falls in Sorcerie $\times 40'$ for Sorcerie hours.

Rearward Glim

Canting 3: You create a magic eye that flies around under your control for Sorcerie turns. You can see through it as well as your normal eyes.

Rum Dubber

Canting 3: For Craft hours your picks and hands open any mundane lock as if the difficulty were 0 — you still take the time, never leave marks. Magical locks are untouched. #needs-playtest

Shadow Bind

Umbrakala 3: Sorcerie creatures entangled in shadow; Defend each turn or cannot act.

Shadow Clone

Umbrakala 3: Sorcerie illusory copies of you, under your control, appear.

Shrink Item

Thaumaturgy 3: One non-living object shrinks to about one-quarter size for Sorcerie hours (or until restored). It keeps its weight and will not function until returned to normal size.

Sniff

Necromantia 3: A creature can smell all scents up to 120' away for Sorcerie turns.

Spider Climb

Thaumaturgy 3: You can climb surfaces like a spider for Sorcerie turns.

Star Guide

Vitae 3: For Sorcerie hours you know the true direction to one named place you have visited before.

Steam Form

Elementale 3: Your body and gear become scalding steam for Sorcerie turns. You pass through small gaps; creatures you pass through take **1d6** to HP (– AC if physical; monsters → Hits) — stepping clear is the defense. Cold or a strong wind disperses you for a round. You cannot cast other spells while vapor. #needs-playtest

Strengthen

Thaumaturgy 3: One object gains Sorcerie × 5 structural HP; breaks only under deliberate force.

Sun Beam

Vitae 3: A beam of daylight (torch-bright, 60' radius) for Sorcerie turns; undead and shadow creatures in it take **1d6** per round to HP (– AC if physical; monsters → Hits).

Thaumaturgic Seal

Thaumaturgy 3: Inscribe a glyph on a surface or object. When a named condition is met (touch, open, pass), it triggers one effect you set at cast: an alarm only you hear, a brief message, or a barrier that holds for one turn. One seal active per caster. #needs-playtest

Thicket

Vitae 3: A thicket of trees and dense brush up to Sorcerie × 40' wide sprouts up over the course of one round.

Tongues

Sorcerie 3: For Sorcerie turns you speak and understand any one spoken language per creature you address — the spoken half of Read Languages. Grants no reading.

Truth Sight

Vitae 3: You can detect lies for Sorcerie hours.

Undead Sight

Necromantia 3: See spirits and invisible undead for Sorcerie hours.

Upright Man's Word

Canting 3: A creature obeys a single, Sorcerie-word command that doesn't harm it.

4th level

Astral Prison

Thaumaturgy 4: An object is frozen in time and space within an invulnerable crystal shell for Sorcerie turns.

Augment Object

Thaumaturgy 4: One weapon or tool gains +1 effective slot class or +1 util bonus for Sorcerie days.

Body Swap

Umbrakala 4: You switch bodies with a creature you touch for Sorcerie turns. If one body dies, the other dies as well.

Death Touch

Necromantia 4: Melee touch. Necrotic. Defend; overrun to HP (– AC if physical; monsters → Hits).

Death Ward

Necromantia 4: One creature ignores the first Sorcerie necrotic hits.

Dimber Damber's Web

Canting 4: Silent hand-signals to Sorcerie allies within line of sight for Sorcerie hours.

Doom Mark

Necromantia 4: Marked creature suffers –Sorcerie on all Defends for Sorcerie days.

Drain Life

Necromantia 4: Touch. Defend; overrun to HP (– AC if physical; monsters → Hits). You heal half the HP dealt (round down).

Dream Walking

Illusione 4: Enter the dream of one sleeping creature within touch for Sorcerie hours (your body helpless).

Earthquake

Elementale 4: The ground shakes violently for Sorcerie rounds. Each target may Defend; overrun to HP (– AC if physical; monsters → Hits).

False Memory

Illusione 4: Implant one plausible false memory in a creature you touch. Hostile — they Defend against your cast total. The memory feels real and cannot be obviously impossible. #needs-playtest

Fear Aura

Necromantia 4: Sorcerie creatures become terrified of an object.

Haste

Thaumaturgy 4: Sorcerie creatures have their movement speed tripled.

Heart Glyph

Vitae 4: Inscribe an emotion on a willing creature for Sorcerie days; those who read the glyph feel it (not control).

Masterscript

Thaumaturgy 4: Inscribe a command rune; the next Sorcerie readers who touch it obey one Sorcerie-word command (Defend).

Maze Whispers

Canting 4: A creature can hear all sounds up to 120' away for Sorcerie turns.

Mind Shield

Illusione 4: One creature immune to read-mind and charm for Sorcerie hours.

Peace Aura

Vitae 4: A calm fills Sorcerie × 10' around you for Sorcerie turns — no new fights start inside it; existing fights may continue at the edge. Unwilling aggressors entering Defend or stop closing.

Perfect Mort

Canting 4: Fully impersonate one person you have studied closely — face, voice, and bearing for Craft hours. Speaking does not break it; deliberate contradiction or magical detection can. #needs-playtest

Purification

Vitae 4: Purify Sorcerie × 10' of food, water, or air of mundane toxins.

Read Mind

Illusione 4: You can hear the surface thoughts of creatures for Sorcerie turns.

Rum Ken

Canting 4: Locate the nearest safehouse or fence in a settlement.

Sculpt Elements

Elementale 4: One chosen element (fire, ice, water, stone, or air) in Sorcerie × 10' acts like clay under your hands for Sorcerie turns — shape but not destroy its nature.

Shadow Meld

Umbrakala 4: Merge with shadow; invisible while still for Sorcerie turns.

Shadow Step

Umbrakala 4: Step between shadows within Sorcerie × 40' once per round for Sorcerie turns.

Shared Ward Pact

Sorcerie 4: Requires a Ward Pact or Greater Ward Pact **in play** (active lasting). Cast to extend that named ward: either to **Sorcerie willing creatures** within 10' (each takes **–Sorcerie Damage** from the named source), or grant **one** creature outright **immunity** to it. Lasts Sorcerie turns. The old **Greater Parma** is simply this cast on the *magic* pact. #needs-playtest

Sharper's Nose

Canting 4: A creature can smell all scents up to 120' away for Sorcerie turns.

Shuffle

Umbrakala 4: Sorcerie creatures switch places randomly.

Smoke Form

Umbrakala 4: Your body and gear become living smoke for Sorcerie turns.

Snail Knight

Vitae 4: In 10 minutes, a knight atop a giant snail rides into view. He may aid you for Sorcerie days if he finds you worthy. The snail cannot move faster than a walk.

Speak with Dead

Necromantia 4: The spirit of a touched dead body appears and will answer Sorcerie questions (if it can).

Stone Tell

Elementale 4: The Referee answers Sorcerie yes or no questions about an object.

Teleport

Thaumaturgy 4: An object teleports to a clear patch of ground up to Sorcerie × 40' away from its origin point.

Topping Cove

Canting 4: For Craft hours move across rooftops, ledges, and wires at a run without a Climb check; gaps up to Craft × 10' are a single leap. #needs-playtest

Unravel

Thaumaturgy 4: Cast this as a reaction to another spell of level Sorcerie or less going off to nullify it.

Void Step

Umbrakala 4: An object teleports to a clear patch of ground up to Sorcerie × 40' away from its origin point.

Ward

Vitae 4: A silver circle 40' across appears on the ground around you. Until you leave the circle, Sorcerie types of things that you name cannot cross it.

Water Breathing

Elementale 4: Sorcerie creatures breathe water for Sorcerie hours.

Whirlwind

Elementale 4: You create a vortex of air Sorcerie × 10' wide that can deflect missiles.

Wild Empathy

Vitae 4: For Sorcerie hours, sense the surface feelings of animals within 120'.

Wind Shield

Elementale 4: Missiles at you suffer –Sorcerie Damage for Sorcerie turns.

5th level

Animate Tool

Thaumaturgy 5: One tool or set of tools works itself at a journeyman's hand for Sorcerie hours — picks locks, mends, digs, writes plain text — as you directed at cast. Combat blows are still 1d6 at most.

Binding Circle

Thaumaturgy 5: A silver circle 40' across appears on the ground around you. Until you leave the circle, Sorcerie types of things that you name cannot cross it.

Bulk the Watch

Canting 5: Sorcerie guards rush to a false alarm you trigger.

Cure Disease

Vitae 5: Touch one creature; one mundane disease or poison cycle ends. Magical afflictions need Sorcerie vs the Referee's Risk.

Darkmans Veil

Canting 5: While you stay among a crowd of at least a dozen, you and Craft allies are unnoticed — faces blur, questions slide off — for Craft turns. Leaving the crowd ends it. #needs-playtest

Death Gate

Necromantia 5: Open a chill gate to the underworld for Sorcerie rounds; undead step through; living may Defend or take **1d6** cold per round.

Density Control

Thaumaturgy 5: The gravity within Sorcerie $\times 10'$ of you triples.

Dimension Door

Umbrakala 5: You step through shadow to a spot you see within Sorcerie $\times 40'$.

Enhance Power

Thaumaturgy 5: Next spell cast from this focus (the Arcana or piece holding the working) within Sorcerie hours gains +1 effective Sorcerie for scaling only.

Ghost Bind

Necromantia 5: Trap one spirit in an object for Sorcerie years.

Identify

Sorcerie 5: Study one magic item for ten minutes; learn its powers, its command word if any, and whether it is cursed. Best worked as a ritual.

Kalla Gate

Umbrakala 5: Open a pocket realm (Sorcerie $\times 10'$ room) for Sorcerie hours; one door in, one door out.

Ken Miller

Canting 5: Once per cast, enter a named building as if every mundane door and window on your path stood unlocked and unlock again behind you for Craft rounds. Magical wards still block. #needs-playtest

Magic Suppressor

Thaumaturgy 5: All magic is nullified while within Sorcerie $\times 10'$ of you.

Major Image

Illusione 5: An illusion of sight, sound, smell, and temperature under your control for Sorcerie turns — up to the size of a room. Physical interaction reveals it.
